

## PRESIDENT'S VIEWS TO BE SET FORTH

### LATEST RUMORS AS TO HIS FORTHCOMING MESSAGE.

Our Foreign Relations—This Subject and the Currency Problem Will Be the Two Most Important Points Discussed—No Warrant For Our Interference In Cuba.

Washington, Dec. 3.—The message of President McKinley will be devoted practically to the subjects of our foreign relations and the currency problem. It will be unique in one respect, in that it will ignore the great bulk of matters usually constituting the departmental portions of presidential annual messages. The postal savings project of the postmaster general is not discussed in the message.

While the details of the currency plank are not definitely known, it can be authoritatively stated that it is in the main an incorporation of the views submitted by Secretary Gage, though as to details the president leaves himself freedom of action by not taking any position with reference to several features of the secretary's plan, while indorsing its main object.

A strong presentation of the Hawaiian question is made and congress is urged to take immediate action by the ratification of the treaty of annexation.

As to Cuba, the message calls attention to the recent trend of affairs on the island, refers to the scheme of autonomy just offered by Spain, and, after reciting other developments in the situation, reaches the virtual conclusion that existing circumstances do not warrant interference in the affairs of the island.

Considerable attention is paid to the question of reciprocity negotiations with various countries in Europe. The policy of the administration on this subject is outlined and, citing French champagne as an illustration, the point is made that if special concessions are given any foreign products the United States must be given equal treatment by reciprocal concessions.

The Alaskan problem is discussed at some length and a plea is made for congressional legislation, including the extension of the operation of the public land laws and the granting of rights of way for roads by which all parts of the country may be made more accessible.

### Sewer Pipe Trust Men Agree.

Cleveland, Ohio, Dec. 3.—It was announced Thursday that at last the great sewer pipe trust, so long fought over at many meetings of manufacturers of that product, and of which those favoring such a formation had grown almost hopeless, is to be an accomplished fact. The combine means more than a consolidation of interests for the purpose of regulating the output and controlling the market. It means an absolute, invincible, and permanent monopoly of the sewer pipe industry, and its far reaching effects can scarcely be estimated. The sewer pipe men, with others, will again assemble here within a very short time to perfect the plans of the pool and effect a final organization.

### Progress in Indian Schools.

Washington, Dec. 3.—The annual reports of Indian schools show considerable progress at Carlisle, Pa., and Hampton, Va., the principal institutions. Superintendent Pratt of Carlisle reports an enrollment of 762 pupils at the beginning of this fiscal year, and they include representatives of sixty-eight different tribes. The total enrollment at the Hampton institute is 138, embracing representatives of thirteen tribes.

### Berlin Rumor Denied.

Berlin, Dec. 3.—It is stated on authority that the announcement made by the Cologne Gazette to the effect that reciprocity negotiations between John A. Kasson, the United States reciprocity commissioner, and Baron von Thielmann, the secretary of the imperial treasury, have been without result, is baseless. It is added that no such negotiations have been conducted.

### Stops "Missing Letter" Plan.

Washington, Dec. 3.—The postoffice department is taking a firm stand against the so-called "missing letter" and "missing word" contests which are being conducted by a number of publishers to increase the subscriptions to their papers. All newspapers and periodicals containing advertisements of this character are to be forbidden transmission in the mails.

### Say Pando Is Not Killed.

Madrid, Dec. 3.—The government has received an official dispatch from Havana which states that General Pando reached Ciego de Avila on the Moron-Jucaro trocha on Tuesday. This dispatch allays the fears that had arisen from the report that General Pando had been killed.

Paris, Dec. 3.—M. Millard, senator for the department of Eure, has been appointed minister of justice in succession to M. Darlan, who resigned, owing to the senate's rejection on Tuesday of his motion to shelve the decision of the removal of a magistrate which had been denounced as illegal.

## MRS. MCKINLEY IS ILL

### President Called to the Bedside of His Aged Mother.

Canton, Ohio, Dec. 3.—At an early hour Thursday morning Mrs. Nancy Allison McKinley, the venerable mother of the President, was stricken with paralysis, and her death is believed to be only a question of a short time. Not since Mrs. McKinley was stricken has there been a favorable feature in her condition.

Abner McKinley communicated with the President as soon as he learned the serious nature of the illness of his mother. Soon after noon Abner McKinley notified the President that the sufferer has lapsed into semi-consciousness and promised to communicate further at 5 o'clock in the afternoon. The President did not wait for the 5 o'clock message. He responded: "Tell mother I will be there," and at once prepared to start for Canton. He arrived here at 10 o'clock this morning.

Dr. Phillips, when he saw the patient at 6 o'clock last evening, had little to add to what he had already said, that she was very ill and stood but little chance of recovery. It was the opinion of the doctor that she could not last more than a few days.

### MAY POSTPONE CONFERENCE.

#### Coal Miners Have No Right to Sign an Agreement Yet.

Columbus, Ohio, Dec. 3.—By the terms of the agreement between the coal operators and miners upon the settlement of the recent strike a joint conference is scheduled for this month to agree upon the mining rate for the coming year. Now that the date for the conference is approaching the miners' officials realize that they are not empowered to enter into a new agreement with the operators, and will not be until the national convention meets in January and decides upon the rate to be demanded for 1898.

For that reason it seems necessary that the convention should be held prior to the joint conference, in order to secure the best results. President Hatchford will communicate with the operators' committee and request a postponement of the date, and in the event that the request is declined the National board will be called upon to decide the advisability of calling a special national conference.

### Prince Bismarck's Opinion.

Berlin, Dec. 3.—Prince Bismarck, in the Hamburger Nachrichten, commenting upon the alleged intention of the United States to interfere in Haiti, says "We deem it a political necessity to oppose this American arrogance often and emphatically and certainly when directed against Germany. Of course nobody in Germany dreams of annexing Haiti, but we hope to induce the government to energetically demand the necessary satisfaction in the shape of damages, and to enforce this by proper means."

The car stopped suddenly at the bottom of the hill, breaking the windows and throwing out the passengers. No fatal injuries were received.

### Waiting for the Chemist's Report.

Sahdval, Ill., Dec. 3.—The excitement caused by the exhuming of the body of Mrs. G. H. Rice has subsided. The coroner's jury has adjourned until a report of the chemical analysis is received, which will not be before the early part of January.

### LAND BOOMERS TO INVADE THE WICHITA COUNTRY.

Twenty Thousand Men Ready—Captain E. H. Hews Is At the Head of the Movement—January 10 Named As the Day For the Advance on the Reservation.

Wichita, Kan., Dec. 3.—Captain E. H. Hews, who is engaged in getting up an army of 20,000 boomers to invade the Wichita country, has designated January 10 as the day for moving upon the reservation, if there is no action by congress toward the opening of the country for settlement. He condemns Secretary Bliss and Indian Agent Baldwin of the Comanches bitterly, and declares that there will be bloodshed if the Indian police or the regular troops interfere with the movements of the boomers. He has the backing of every citizen in Greer county, Oklahoma, and will have by January 1 at least 15,000 recruits in other parts of Oklahoma and in southwestern Kansas. He is getting out a circular, which is to contain a report of the assay of two carloads of quartz rock taken from the Wichita mountains, and sent to Denver in October for inspection by the mint. In this paper the proposition of opening the Wichita reservation will be argued, and radical measures advocated in case congress fails to act.

### CATTLE FEVER QUARANTINE.

#### Recommendation to Agricultural Department That Line Be Changed.

St. Louis, Mo., Dec. 3.—The Interstate Association of Live Stock Sanitary Boards adjourned their meeting in this city Thursday to meet at Fort Worth, Texas, Oct. 2, 1898. They recommend to the Department of Agriculture that nine additional counties in Tennessee, six in Missouri, and all of Arkansas be placed below the southern fever quarantine line, the line of 1896 through Indian territory and Texas to remain undisturbed. They also adopted a resolution suggesting a change in the shortening of the term of the open season one month, placing the time from Nov. 15 to Jan. 15.

### Railroads Plead for Time.

Washington, Dec. 3.—The hearing given by the interstate commerce commission to the representatives of the railroads, which have petitioned for an extension of time in which to comply with the car-coupler law passed in 1893, was resumed Thursday. Representatives of many delinquent roads rendered their excuses to the commission. All united in the request of Mr. Cowen for a general five-year extension. Lack of funds, reduced earnings, want of shop facilities and the difficulty of determining the safest and most economical appliance were the main reasons advanced for delinquencies. President Smith of the Louisville & Nashville in the course of his explanation of the delinquency of his road expressed the opinion that the time was coming when the people of this country would demand the confiscation and government ownership of railroads.

## RIOTERS ARE SHOT BY THE SOLDIERS

### TROOPS ATTACKED BY A MOB IN STREETS OF PRAGUE.

Martial Law Proclaimed—Sensational Report Received At Vienna—Large Bodies of Troops Sent to the Bohemian Capital to Restore Order—Reichsrath May Not Reassemble.

Vienna, Dec. 3.—A report is current, though as yet unconfirmed, that a mob at Prague attacked the soldiers and a sanguinary encounter ensued. According to this rumor the troops fired four volleys, killing twenty-five rioters outright and wounding many.

### TROOPS IN PRAGUE.

#### Gravity of the Situation Understood by the Authorities.

Prague, Dec. 3.—As an indication of the gravity of the situation troops to the number of 10,000, equipped with ammunition and other paraphernalia as for a campaign, have been engaged in suppressing the riots here. Further troops are being drafted into Prague from Vienna and elsewhere.

The Ambulance association has issued a report showing that within the last twenty-four hours four persons have been killed, 150 dangerously wounded and 500 more or less seriously wounded. Twenty shops have been burned out.

It is not exactly martial law that has been proclaimed, but rather the institution of summary civil procedure, called standrecht, whereby a special tribunal of seven judges is empowered to impose capital and other severe sentences for offenses ordinarily punished mildly. There is no appeal against a death sentence by the tribunal, which must be put into execution within two hours by the military if the hangman is not available.

There were further excesses Thursday at Weinburg. The police were obliged to use their revolvers. A house in Aletanterring was wrecked and the pillagers were dispersed by a mounted patrol. There were other acts of pillage at Zeiskow, but the mobs everywhere were quickly dispersed.

There have been serious collisions between the police and large mobs in the Smichow and Zeishow suburbs of the city. Two persons were wounded. The police made ninety arrests.

The burgomaster and the municipal councilors have submitted to the government complaints against the German students in connection with the recent disturbances. The governor replied that, while he well understood recent events have caused great excitement, he was compelled to point out that there was no justification for the excesses in this city, and he further declared that the utmost rigor would be exercised in order to re-establish order and protect the property of Germans.

### Reichsrath May Never Assemble.

Vienna, Dec. 3.—The parliamentary deadlock continues. Baron Gautsch, the new premier, has made no progress toward a compromise satisfactory to the rival factions, and it begins to be feared that the present reichsrath will never reassemble. Certain it is that if the reichsrath meets with Dr. Von Abrahamovics in the chair the same disorderly scenes will occur as before.

### Millions for Pensions.

Washington, Dec. 3.—The first piece of general legislation to pass the House will likely be the pension appropriation bill. In spite of every effort to keep down the payment for pensions the recent liberal policy in the pension office has had its inevitable result. Of late years the appropriations for pensions have averaged about \$140,000,000. Now, more than thirty years after the war has closed, Congress finds itself confronted with the necessity of adding a lump sum of at least ten millions. The appropriations carried in this one bill will more than wipe out the entire receipts from internal revenue.

## BANK ROBBERS MISS \$60,000

### Daring Attempt to Loot a Safe at Milford, Ind.

Milford, Ind., Dec. 3.—Five men tried to rob the private bank of Miles & Higbee here Thursday morning and failed. As Night Watchman Stiffler was passing the bank door two men stepped from the mouth of the alley and put revolvers to his face. Another member of the gang dealt him a blow across the head with a heavy piece of iron. He was dragged to the rear door of the bank and left lying in the alley, while the three men began forcing an entrance to the bank.

The safe was drilled in a crude way, black powder inserted and the robbers stepped outside to await the explosion. It was a fizzle. A second time the powder was inserted and again the five robbers left the building, expecting the safe to be wrecked, but again the powder failed to explode. It was now after 3 o'clock and the robbers were afraid to stay longer. They swore at one another because dynamite or giant powder had not been brought, and then left.

By violent struggling the night watchman released himself in half an hour. Posses started at once in every direction and searched the country all day, but there was no trace of the robbers to be found. Bloodhounds have been put on the trail. There is reason to believe that the men were from some town not far distant and that they reached home before daylight. There was about \$60,000 in the vault.

He acknowledges himself to be a willing accessory to the crime, but accuses Delilah Fales, a young woman of the neighborhood, with being the principal in the murder. The two had also planned to kill Kern's mother. The motive for the murder is found in the objections of Kern's parents to his associating with his confessed accomplice.

ATTEMPTED BOYCOTT.

Competitor of the Leader Tries To Injure Us Among Wholesalers.

Failing to scare us out, and utterly unable to meet our prices, one of our local competitors has sought to invoke the aid of a boycott—not on us, but on a firm we patronize. A boycott on us would be more to his mind, but the people of the city know that we are saving them money on every purchase, and appreciate our aid too much to have any but the most friendly feelings.

How was the boycott campaign inaugurated? Our worthy competitor wrote to the Milwaukee jobbing house in question, Messrs. Gauder & Paeschke, and warned them not to sell goods to the Leader—that we were a bad risk. Their blow at our credit fell back upon themselves as Gauder & Paeschke wrote back promptly that the Leader bought more goods in a month for spot cash, discounting no bills, than our worthy competitor did in a year (on time). That letter settled our friends for the moment but the stream of trade toward the Leader was more than they could endure and they wrote the secretary of the State Hardware Dealers Association asking him to warn the Gauder & Paeschke company to stop selling to the Leader. The secretary wrote as requested, and enclosed our competitor's letter. That was now we came to hear of it. The Gauder & Paeschke company wrote to us at once and told us about all three of the letters. The company is now threatened with a boycott in this state and others if goods are supplied us.

Now we want to apologize for dragging the public into this matter. We do not do it to gain sympathy—we are able to take care of ourselves. We merely want to show what methods are adopted by some merchants to keep up the prices and make the customer suffer. We are selling goods from 20 to 30 per cent. cheaper than our competitor, because we discount all bills and keep goods moving rapidly. As long as we do this the people will know us as their friend and will stand by us. We fear no boycott campaign, and no secret letters from competitors. Had our credit been in question we might have been hurt, but hundreds of factories all around the country are ready and anxious to sell the Leader, and our invariable practice of paying cash on the nail gets us the lowest quotations.

## STREET CAR FARGE TAKES IN COUNCIL

### ALDERMEN SHOULD GO SLOW IN MATTER.

It is Not All One Sided And Mr. Blabon is Hardly the Man to Be Bluffed—Talk of Franchise Annulling—To Be Consistent Council Should Vote Aid.

A special meeting of the common council will be held at the council chamber this evening, for special business.

In all probability the meeting was called for the purpose of considering the matter of the discontinuance of the street cars.

If that is the idea, the council would do well to go slowly.

Mr. Blabon owns the street railway system, and it cannot be taken away from him. His franchise might be annulled—at a large expense. And after the large expense had been incurred, the court might decide not to annul it.

Then what would the city have gained?

Then, again, suppose the franchise was annulled, what would the city gain? The railway might be ordered torn up, but the rails, which are the principal nuisance when the line is not in operation, "are," according to a newspaper that has been agitating the matter, "a part of the street, and cannot be removed, according to learned attorneys."

Railway Company at Fault.

It is true that the street railway company has not given good service, and it is true that many people favor the removal of the line. It is equally true that the railway has given better service than was afforded by horse cars, and that many people, also, do not favor tearing up the line.

It is true that the citizens of Janesville ascribed \$1,100 toward building a \$2,400 power house, but it is equally true that Janesville people do not ride enough to make the line pay. The thing is not one sided by any means.

Certain Janesville people condemn Mr. Blabon, and Mr. Blabon undoubtedly condemns certain Janesville people.

The council should take no action without careful consideration. The taxpayers have recently paid for one experience in the franchise-annulling line.

Advice Might Be Heeded.

If the council can give Mr. Blabon friendly advice, he will probably be glad to get it, but people who know him are free to state that a "bluff" from the common council will not scare him in the least.

There has been a good deal of talk of late about "letting someone start up a car line that would give good service." That is all bosh. It stands to reason that no man will invest \$50,000 to start a car line in a town where a car line has been a failure. If the common council or any of the people have been complaining about the car line, know of any one who wants to run the railroad, they will undoubtedly confer a favor by notifying Mr. Blabon. Doubtless Mr. Blabon could be induced to sell out.

When Mr. Blabon was here the last time he told a Gazette man that he was debating whether or not to rebuild the line.

"Now that I have burned out, I think I can let go easier than I ever can again," he said, "but I want to be fair with the people. If they are interested enough in the line to help me rebuild, they will probably be interested enough to patronize the cars if I start them up again."

Citizens Did Not Ride

The citizens were interested enough to help Mr. Blabon out, but they were not interested enough to patronize the line.

Who can expect service where a venture does not pay?

It is easy for people who have no money invested to howl, but Mr. Blabon's street car line represents some \$40,000, or \$50,000 of his money. He has some rights, it would therefore seem, that people are bound to respect, even if there is a chance for someone to "make a grand stand play."

The common council recently took a stand that many people said was in favor of charity to those claiming to be in business trouble—and the taxpayers must foot the bill.

Now, however, they propose to "salt" the Street Railway company—i.e., salt utterances are any criterion by which to judge of future actions.

Hence the people demand that the common council make haste slowly.

Consistency Calls For Aid.

To be consistent, they should vote aid to the Street Railway company but the taxpayers may not be willing to pay up.

The Gazette has no interest in the street railway and is not the sponsor or defender of that or any other business interest. It sees the defects in the railway management. Being unbiased it also sees the defects in the criticisms made.

It is well enough for the council to "guard the interest of the taxpayers" but the street railway is not the only public enterprise at fault. The people, The Gazette believes, do not demand protection from the street railway company at the expense of a law suit.

It is all right to talk about "test cases" and "finding where the city stands" but while a horse may be led to water, he cannot be compelled to drink.

It is safe to say that Mr. Blabon

cannot be driven an inch, but past experience would tend to show that he will meet people half way on business propositions.

The street railway farge should stop right here. Let the common council remedy the evils for which that body itself is responsible—sidewalk suits, "charity work," etc.—before it takes up any new problems.

The Gazette has every respect for the authorities as individuals, but as officials some of them seem to be lacking business sense.

The city's legal adviser has told the city officials just where they stood in this matter and the council will do well to heed his advice.

They are perfect in mechanical construction, and in design and finish are the handsomest light givers you ever saw. One of these elegant lamps would make a practical Christmas present.

## BIG OSHKOSH PLANT MAY BE MOVED HERE

### MANUFACTURERS OF MACHINERY TO CHANGE.

The Business Has Outgrown Their Sawdust City Accommodations, and They Are In Search of a Location—Want a Site and Building As a Bonus.

A proposition that the citizens of Janesville cannot afford to ignore is now made them by Oshkosh capitalists.

A factory that will employ between 100 and 200 hands can be secured for this city if sufficient capital is subscribed.

E. B. Hayes, manager and main owner of the E. B. Hayes Machine company of Oshkosh was recently in the city and laid the matter personally before local business men. He does not ask that stock shall be taken, but said that his firm would move to this city providing that a suitable site and buildings were secured, the same to be given outright to the firm.

To carry this through would take in the neighborhood of \$10,000 which amount would have to be raised.

The buildings erected by the firm would have to be erected especially for their use and would all be of brick, and one story high.

The business carried on is the manufacture of wood working machinery, the same as is now carried on by the Berlin Machine Works at Beloit, and in time it is said that the Hayes plant could easily be made to equal in every way the Berlin plant that is today one of Beloit's greatest institutions.

About the Firm.

The E. B. Hayes plant at Oshkosh is considered one of the Sawdust City's most promising ventures. It is capitalized at about \$40,000, which in case its removal here would be increased to \$100,000. Mr. Hayes is laying the matter before a local business man, stated that he wished to move from Oshkosh for no other reason than that they had outgrown their present quarters and were looking around for a location where buildings that were best suited to their wants could be secured.

During the past week The Gazette has withheld the publication of this article at the request of local interested parties who hoped to close the deal with Hayes before the citizens of Oshkosh were aware that such a move was on foot. Now, however, as long as nothing of a definite nature has been done, the matter was released for publication. Mr. Hayes, who has been a resident of Oshkosh for a number of years, is a man who bears a good business reputation and is one who is held in the highest esteem in local business circles.

Evenson, who for years was a partner in the drug firm of Prentice & Evenson will be in charge of the store. REHBERG RENTS SHOE STORE

Several outside shoe firms have tried to get the store, and in order to secure the place, Mr. Rehberg was obliged to draw up the lease at once.

## WOMAN'S WORLD.

## AN OSHKOSH WOMAN APPOINTED AS CITY PHYSICIAN.

Woman and the Nation—Fair Government Clerks—Bifurcated Garments on the Bicycle—One More Outlet—The Grave of Kate Field.

Oshkosh, Wis., may have a funny name and its remoteness may furnish the conventional joke maker with a butt for his mirth, but this same Oshkosh leads the van of civilization. At least in the eyes of the progressive woman this appears so.

Oshkosh, be it known of all men, has a woman as its city physician.

Only a few days ago Bertha V. Thompson, a bright young graduate of a Chi-

ago medical college, was appointed to the position by Mayor Ideson. "May his tribe increase," say the advanced women, no doubt to take the place of a man doctor who was suspended from duty pending an investigation.

She is the first woman to fill such an office in her state. She was born in Neenah, Wis., and for a few years was a teacher. She gave up this profession to serve as a hospital nurse, and then later studied medicine, taking her degree with high honors.—Boston Globe.

## Woman and the Nation.

As the country develops and the living questions of how its vast areas shall be possessed by industrious, happy people press for settlement, women bring to the solution the discipline of the home, the school and the philanthropies where the vital questions of production, distribution and consumption have been studied according to scientific theory and illustrated by practical application.

It is impossible that women shall have carried all these interests in their hearts, and in their activities, and not be well equipped for their application in the broad domain of national economics.

Some of us are deeply concerned in these vital problems of American life. We find ourselves in the midst of conditions which, until recently, were wholly European. Mixed populations in crowded cities and colonies of foreigners distributed through the country give rise to apprehension in the minds of intelligent women. It is not possible, neither would it be right, to attempt the wholesale exclusion of these foreigners. They are the children of the Heavenly Father whom we call "our Father." Some are of the noblest fiber—they have brought new luster to the stars and brightness to the stripes of the dear old flag—but masses of others are windfalls of monarchical governments, the garbage of oriental civilizations and deserters from imperialism and militarism. American women, the daughters of Revolutionary heroes, the daughters, the wives, the sisters of a later generation of heroes, know that all the interests they hold dear are to a degree affected by the political action of these men.

Thoughtful women know that the nation is a grand whole; that if one member suffers the whole suffers; that if one is blessed all are blessed. Women have no separate interests. If man is elevated and the general tone of society is purified, woman receives her share of advantages.

The country has made immense strides in material development during the last quarter of a century. Huge commercial enterprises have arisen like giants in armor and have strode from ocean to ocean, leaving tracks of steel and hand prints of light.

The triumphs of mind over matter stamp this period illustrious among the centuries. Within this success there hides danger. The loss of one faculty sharpens others; the blind are sensitive to touch. The cultivation of one set of faculties tends to the disuse of others. Has not the extreme cultivation of the commercial faculties permitted others as essential to national life to be blighted by disuse?

During this evolution woman's relations to the industrial, the educational and the philanthropic world and her pressure toward the political world has been a savor of life unto life. Community life and national life need heart. Women have much heart. Out of the heart are the issues of life.—Mrs. J. Ellen Foster in North American Review.

## Fair Government Clerks.

"Of the 20,000 clerks employed by the government in Washington more than 6,000 of them are women," writes Mary Nimmo Balentine in an article on "Women in the Government Departments." "Their salaries range from \$600 to \$1,800 a year. The women clerks are under the protection of the civil service rules, and they have all been appointed under the regulations of the civil service commission. The system gives a greatly improved service. Women are said to pass better examinations as a rule than men; they are more apt, quicker to comprehend and brighter in the performance of their duties,

and in many branches of the work are preferred to men. They are treated fairly and cordially in all things; there is a disposition on the part of men to recognize ability and accord hearty support to high class powers.

"The women clerks are generally content with their life. Many of them have seen better days and circumstances and have children or parents dependent upon them for support. They are usually the most charming ladies to meet. Their salaries allow them to live comfortably, and they all dress well. In many of the buildings the offices are spacious and are fitted up with all the modern conveniences. Some are quite sumptuous in size and furnishings, while others are smaller and plainer in their appointments, and in some of these, through long accumulations, the furniture is crowded. But wherever assigned to sit the crisp muslin frocks and the bright ribbons of the women give an air of freshness and beauty to the surroundings, like that of roses in a garden of shrubs. Nowhere are so many white dresses worn by women as in this Capital City—even to the sheerest of muslins and organdies—in the streets and in offices. However one may regard the custom one must admit that the dainty costumes light up the dingy official spaces with a wonderful brilliance. For the most part there are not many clerks placed in one room—often no more than two or three persons—and tall, green screens are very generally used to shut out the gaze of curious passersby in the corridors. The ages of the women range from 20 to 50 years, and even more than that. One ungallant chief of a division remarked that he found the average very high in his rooms. Though they are as a rule very happy in their situations, some are restless and would hail with joy a change of surroundings. There is a charming spirit of camaraderie and loyalty to each other among the members of the little coterie, who have known one another through long years, that is truly beautiful."

## THE HEAT PLAGUE OF AUGUST, 1896.

## Mrs. Pinkham's Explanation of the Unusual Number of Deaths and Prostrations Among Women.

The great heat plague of August, 1896, was not without its lesson. One could not fail to notice in the long lists of the dead throughout this country, that so many of the victims were women in their thirties, and women between forty-five and fifty.

The women who succumbed to the protracted heat were women whose energies were exhausted by sufferings peculiar to their sex; women who, taking no thought of themselves, or who, attaching no importance to first symptoms, allowed their female system to become run down.

Constipation, capricious appetite, restlessness, forebodings of evil, vertigo, languor, and weakness, especially in the morning, an itching sensation which suddenly attacks one at night, or whenever the blood becomes overheated, are all warnings. Don't wait too long to build up your strength, that is now a positive necessity! Lydia E. Pinkham's Vegetable Compound has specific curative powers. You cannot do better than to commence a course of this grand medicine. By the neglect

came to Mrs. Craig, and how she was cured:

"I have taken Lydia E. Pinkham's Vegetable Compound and think it is the best medicine for women in the world. I was so weak and nervous that I thought I could not live from one day to the next. I had prolapsus uteri and leucorrhoea and thought I was going into consumption. I would get so faint I thought I would die. I had dragging pains in my back, burning sensation down to my feet, and so many miserable feelings. People said that I looked like a dead woman. Doctors tried to cure me, but failed. I had given up when I heard of the Pinkham medicine. I got a bottle. I did not have much faith in it, but thought I would try it, and it made a new woman of me. I wish I could get every lady in the land to try it, for it did for me what doctors could not do."—MRS. SALLIE CRAIG, Baker's Landing, Pa.

## A NEW POSTAL ORDER ISSUED

A Plan For the Identification of Persons Who Remit Money to Themselves.

Wisconsin postmasters are in receipt of a new order regarding self-identification, or a plan whereby a person may remit money to himself, which has been made by the postoffice department. It is stated that the new rule will obviate many perplexing situations which have arisen.

There have been of late frequent instances of persons who, traveling from one place to another, have, instead of carrying money with them, provided against loss by sending the cash to their destination by order overdrawn in their favor. When they apply for the money they were requested to furnish identification. This has been noticed more especially in the case of farm hands going from the harvest fields of the Dakotas. The destination of the men is almost always some place where they have not even acquaintances and to secure some one to identify them is practically impossible. Then follows telegraphing and a pile of red tape, causing delay and expense. Some, in purchasing the order, waive identification, and in this case the order is like a "pay to bearer" check or draft and is given to the person who presents the receipt issued from the office where the money was deposited.

The new scheme is for the purchaser, when remitting money to himself, to give the postmaster from whom he gets the order a slip of paper bearing and purchaser's correct signature. This the purchaser incloses with the "advice" to the office at which the order will be presented, and when the payee calls for his money he writes his name, and if the signatures are alike, he gets his money.

Business men will adopt this as a means of identification. They frequently remit to their traveling men by money order. Before the commercial man leaves his house he will supply his employers with a number of slips bearing his signature. When remittances are made to him, one of the "signatures" will be sent to the post office along with the advice, and the identity of the payee is simple.

Cannibalism in Samoa. Dead Stalwarts Eaten to Obtain Strength and Courage.

A writer on the French Journal des Debats, who has just returned from a trip to Samoa, says that nineteen per cent of the population eat stalwart warriors who fall in battle to obtain strength and courage. The former quality is more easily obtained in civilized communities by the use of Hostetter's Stomach Bitters, a tonic of unexampled utility, which confers strength upon the feeble through the agency of improved digestion and assimilation of the food. The operations of that mysterious alchemist, the human stomach, are often greatly impeded by those obstacles to complete digestion—biliousness and constipation. For these ailments Hostetter's Stomach Bitters is a sovereign remedy. It also conquers and prevents rheumatism, kidney trouble and nervousness. Recuperation of exhausted strength after sickness is often tedious and slow. The Bitters will always hasten the recovery of vigor. Use it systematically and justify yourself in expecting satisfactory results.

It is easy to catch a cold and just as easy to get rid of it if you commence early to use One Minute Cough Cure. It cures coughs, colds, bronchitis, pneumonia and all throat and lung troubles. It is pleasant to take, safe to use and sure to cure. C. D. Stevens.

The Chicago and Northwestern Telegraph and Telephone company filed articles of incorporation at San Claire, and a line to Chicago is to be built. The company commences business with a capital of \$25,000, which will be increased to \$500,000 as needed. Eastern capital is said to be interested.

## A GOOD PRACTICE.

If You Want a Good Appetite and Perfect Digestion.

After each meal dissolve one or two of Stuart's Dyspepsia Tablets in the mouth and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermentation, half-digested food.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure. They increase flesh by digesting flesh-forming foods.

Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and nothing else. One disease, one remedy, the successful physician of to-day is the specialist, the successful medicine is the medicine prepared especially for one disease.

A whole package taken at one time would not hurt you, but would simply be a waste of good material.

Over six thousand men and women in the state of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

Sold by all druggists at 50 cents per package.

## SAW A FINE PLAY LAST NIGHT

'Captain Impudence' Was An Excellent Production From All Standpoints.

"That was the best company that has been here this year, said a theatrical authority after witnessing 'Captain Impudence' at the Myers Grand last evening. The statement expressed the sentiment of the handful of people present. An exceptionally well balanced company had presented an exceptionally well conceived play but the audience was beggarly.

The story of 'Captain Impudence' has to do with the lives of some half dozen persons, principally and as many more, more or less incidentally.

A young captain in the American army finds him self in the field with battles and skirmishes frequent enough to please the most blood thirsty. He has won for himself a place of high repute in the minds of his fellow soldiers by deeds of heroism and the story opens after a battle in which he has eclipsed all former exploits. The major of his regiment has a daughter whose charms have found many admirers, but the Captain as a self appointed suitor advises the young lady to lay aside any predilections she may imagine herself possessed of or any other fellow and concentrate all the affections of her heart upon him assuring her that "up there where the happy marriages are arranged" he had been picked out for her. The young lady dubs the gallant suitor, "Captain Impudence," and his sophistry so much rubbish, but he wins her after all. The method he employs is sufficient to afford an evening's entertainment of fun. The company carries with it an entire stage setting which affords additional aid to the proper presentation of any play.

J. A. Perkins, of Aniquity, O., was for thirty years needlessly tortured by physicians for the cure of eczema. He was quickly cured by using DeWitt's With Hazel salve the famous healing salve for piles and skin diseases. C. D. Stevens.

## REVIVALIST SPOKE IN DARK

Failure of the Lights At Lapping's Hall Did Not Stop Meeting.

The Evangelistic meeting conducted by the Rev. W. B. Taylor of the Christian church at Lapping's hall met another difficulty last evening by a failure of the light caused by the extreme cold. The minister said we walked by faith and not by sight and began the meeting. The light was soon turned on again but not until a number had turned away. The subject of last evening's discourse was "Murderers of Janesville." The minister charged murder against the unkind and cruel husband who killed his wife by inches and the wayward boy and girl who break father's and mother's hearts as murderers. He condemned the saloon as a wholesale instrument of death claiming 100,000 victims every year and this sustained by the suffrage of professed Christian voters. He extended full sympathy to those in the snare of death and urged the "Blood cure" the blood of Jesus as the remedy and escape from this and other sins.

The meetings continue tonight and Saturday evening. Subjects the Ten Commandments restated in the New Testament. There will be no meeting Monday night of next week.

Mrs. Stark, Pleasant Ridge, O., says, "After two doctors gave my boy up to die, I saved him from croup by using One Minute Cough Cure." It is the quickest and most certain remedy for coughs, colds and all throat and lung troubles. C. D. Stevens.

of Coal—our Coal. Our Coal is worth so much more than the other kind; that's why we sell more of it, than anyone else. Try us and be convinced.

**A Favorite  
Remark - -**

Of young men of limited means: If I could afford it, I'd always go to a tailor. Now a suit of clothes I make will last twice as long, and fit twice as good, as a ready made, and more than pays for itself in the satisfaction it brings. As for price: Put ours and the ready-made side by side, and it will be hard to tell them apart.

**ONE DAY SALE;  
ONE DAY ONLY.**

We have had several sales previous to this one; all have been great; this one will be greater---the best of any. Comes at a time most helpful to Shoe purchasers. Winter stock is most complete now; sizes full; styles all here. A month later will find them broken.

\$3.00, \$3.50, \$4.00, \$4.50 and \$5.00 Shoes; every pair at one price--\$2.98.

No better month in the year for Shoe selling. Our trade is large; we intend intend increasing it, doubling it for one day. The one price with no reserve of stock will accomplish it.

**\$2 98 FOR CHOICE.**

We don't experiment with the public; our offers are plain; we never disappoint. That's why we sell so many Shoes. The offer for Saturday means just what we say: Any Shoe in the store \$2.98. Will you miss this saving?
